

## PFOS Compliance

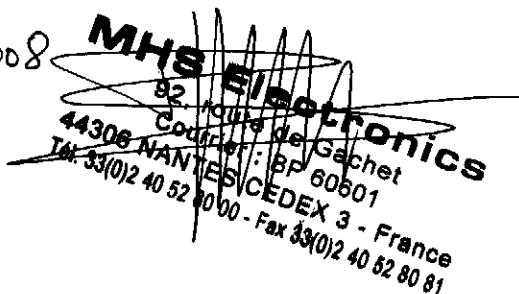

MHS Electronics has checked the compliance to the directive N° 76/769/CEE of July 27, 1976, modified by the Directive 2006/122/CEE of December 12, 2006, relating to the restriction on the marketing and use of PerFluoro Octane Sulfonates (PFOS).

MHS Electronics has also- widened the control to photoresists and antireflective coatings used in photolithography processes, although not included in the directive.

MHS Electronics attests to fulfil the requirement of the directive and has in place a system to assure the maintainability of the conformity.

Date: 12<sup>th</sup> June 2008
